

## **Merger information AVC GmbH into Sertronics GmbH**

Dear Madams and Sirs,

AVC Audio-Video-Communication Service GmbH and Sertronics GmbH are pleased to announce a merger, which will take effect on August 1, 2016 to form Sertronics GmbH.

AVC Audio-Video-Communication Service GmbH and Sertronics GmbH have been members of the Sertronics Group for about 10 years. During this period both companies expanded a close and successful partnership in the area of consumer and industry services. Since Sertronics GmbH fully acquired AVC Audio-Video-Communication Service GmbH in December 2015, this merge is the next step of the Sertronics Group strategy.

Because there won't be a change in the shareholder structure and the management board, the merge results in a modification of AVC's name without any significant operational changes.

For all of our valued customers and partners we will continue our services on the usual high quality level without any changes in the communication processes and key accountants.

Please find more details about our new bank account in the attachment and forward it to all relevant persons.

Best regards

Torsten Herbst  
Geschäftsführer / CEO
